

Hull Lifesaving Museum

SUMMER ADVENTURE PROGRAM 2021

The Summer Adventure Program offers seven weeks of discovery and exploration for children ages 5-11. From tide pools to pond yachts and mermaids to shipwrecks, kids will explore a different theme each week! Summer Adventure meets Tuesday-Thursday from 9:30-12:30. Each week includes hands-on activities, outdoor exploration, and a

fun mix of history, science, and arts. Visit www.hulllifesavingmuseum.org for more information.

Session 1, Tide Pool Adventures I, July 13-15

Always a highlight of the summer, we'll explore the wonderful tidal pools within a short walk of the museum, learning to slow down, look closely, and find the wealth of plant and animal life in a single small pool.

Session 2, Art Week, July 20-22

Come meet local artists and discover the fun of maritime art projects! We will explore a new project each day.

Session 3, Pond Yachts, July 27-29

A great opportunity for young children to build their first model boat-a T12 that sails beautifully. Children will assemble, paint, and rig their vessels from a high quality T12 model boat kit.

Session 4, Shipwrecks and Lifesavers, August 3-5

Walk in the footsteps of Captain Joshua James and his crew, exploring daily life at the historic Lifesaving Station. We'll learn about Boston Harbor's most amazing storms and shipwrecks, and hear stories of courageous rescues!

Session 5, Pirate Adventures, August 10-12

Who doesn't love a good pirate adventure! Come learn about the lives of pirates and venture on pirate outings around the museum.

Session 6, Tide Pool Adventures II, August 17-19

Always a highlight of the summer, we'll explore the wonderful tidal pools within a short walk of the museum, learning to slow down, look closely, and find the wealth of plant and animal life in a single small pool. (It is not necessary to have participated in Tide Pool Adventures I to participate in this session).

Session 7, Tide Pool Adventures III, August 24-26

Always a highlight of the summer, we'll explore the wonderful tidal pools within a short walk of the museum, learning to slow down, look closely, and find the wealth of plant and animal life in a single small pool. (It is not necessary to have participated in Tide Pool Adventures I or II to participate in this session).

Registration begins March 1, 2021. Please call 781-925-5433 or email Mike@hulllifesavingmuseum.org to register.
